JANUARY 22, 1973

ISSUE NO. 2

NEXT MEETING FRIDAY JANUARY 26th "SOME APPLICATIONS FOR DIGITAL CIRCUIT TECHNIQUES"
"PROGRAM" Presented by Al Strickland W9LKZ. DONT'T MISS THIS TECHNICAL PROGRAM
Get the latest down to earth data on the How Why and What to do.

PROGRAMS + 30 DB We have a list of programs for all the coming meetings that tops
anything in our 59 year history! Thanks to Art Schultz W9BR
we have professional Engr, world travelers, mahh experts, measurement
magnetics, KW amplifier builders etc. all hams to bring you the
latest information. SEE ATTACHED LIST OF PROGRAMS AND SAVE YOUR COPY.

HAM TO W9UEM "Charlie" Campbell is going to be married soon and will take
HONEYMOON IN an extended Honeymoon vacation in St. Pete , Fla. Congratulations
FLORIDA from the IRC Charlie. He also brought us the card files he made
for work on the local Ham Directory. We need more volunteers
besides Jane Heaton WB9AWL and Hank Wolfla K9LZJ Who Else....????

QUIZ WINNER Doyle Carry who won the Prize at last meetings Technical QUIZ, also
GET HAM Won out his wait for the Postman and as of Friday Jan 19th is
TICKET WN9LOA. Doyle hopes to be on the air this week with his Viking
Ranger -VFO and Collins 75A3 Receiver on the Novice bands..Good Luck.

INDPLS HAMFEST Bill Evans WB9BEN advises that plans are beginning for the 1973
INDPLS HAMFEST and details will be available before the Dayton
Hamvention in April so everyone will know earlier this year.

NOVICE" Byron Fortner W9FYM will help novices by grinding crystals if they
provide holders etc. See Doug Loughmiller if you need xtls.

STUDY FOR Doug WN9KPC, Tom Chance WN9KWS and Vernon Miller WN9KXL are all
GENERAL studying for their general test in front of FCC examiner on Feb 9th.
Tom is also happy with a new 15M beam he received from a fellow club
member.

OSCAR 6 Bill Lueth W9AI continues to work Ham stations thru the Oscar 6
Satellites.. who else is doing it locally..??

ENJOY YOU Bill Fleming WA9VPU who helped the IRC on the Hoosier Canoe Regatta
HOBBY is axtive on 2 FM and has the right idea for a good weekend.
Last Friday he said " TGIF on his way home and was going to kick off
his shoes; read the newspaper; pet his dog; relax with a good dinner
and work on the Rig all Weekend!" Now that what we call ham radio!

Founded 1914our 59th year!

PROGRAM DETAILS

<u>DATE</u>	
26 Jan.	Al Strickland, W9LKZ. <u>"SOME APPLICATIONS FOR DIGITAL CIRCUIT TECHNIQUES."</u> Al is a graduate Electrical Engineer and has been developing some new ham gear, details of which you will not want to miss. - Frequency Synthesizers.
9 Feb.	Bob Kryter, an old friend of the Radio Club and an Engineering Consultant. Program on <u>"TAMING THE H BOMB."</u> New sources of electrical energy in a dwindling ecology.
23 Feb.	Ed McNay, (ex W9EXU). Meet at IVT TECH, 1315 E. Washington St., Ed will provide a tour of this facility and a program on <u>"TROUBLE SHOOTING ELECTRONIC CIRCUITS, WITH DEMONSTRATIONS IN SCHOOL LABS."</u> Come and learn how to fix your rig.
9 March	(Rev) Bill McLaughlin, W9GZT, graduate mathematician. <u>"HOW TO SOLVE YOUR ELECTRONIC CIRCUIT MATH PROBLEMS."</u> Mac will work a lot of examples on the board and answer all those math questions you always wanted to ask.
23 March	Dick Judkins, Chief Engineer of Esterline Angus. <u>"ELECTRONIC MEASUREMENT TECHNIQUES AND EQUIPMENT."</u>
13 April	Bob Annis, ex9CUD of the R.B. Annis Co., will present a paper on <u>"MAGNETIC-ELECTRONIC DEVICES AND APPLICATIONS."</u> Bob is a well known master of magnetics and will demonstrate equipment and show us how to employ magnetic materials in our circuits.
27 April	Gene VanSickle, W9KJF needs no introduction. He is an avid world traveler and has photographed more square miles than any sneaky satellite. He will show us and tell us about <u>"DX Places"</u> he has visited. This is LADIES NIGHT so bring out the distaff side and let them see what the OLD MAN does on each second and fourth friday evening of the month. The ladies are going to cook up a special REFRESHMENT after the meeting. FREE, FREE, FREE,
11 May	Claude Richie, W9TKV, is a well known DXer having worked over 330 foreign countries. <u>"HOW TO WORK DX AND BEAT OUT THE BIG GUNS."</u> Claude will tell us how its done, where to tune, when to listen, how to get that rare QSL card and sources on info on DXpeditions, etc. DON'T MISS THIS.....
25 May	Harry Butler, W9FU, on <u>"LINEAR AMPLIFIERS AND THE INNERDS OF THE HEATH SB-220 Linear."</u> Harry will describe the circuit theory, design features show the amplifier with the covers off and discuss the circuits, summarize the results of operation with this modern equipment.
8 June	CREATIVITY NIGHT. Bring your <u>"homebrew gear"</u> and compete for prizes. There will be two classes, NOVICE-TECHNICIAN and ALL OTHERS holding higher class tickets. Each entree will describe and discuss his equipment. ALSO AUCTION NIGHT. Auction follows this "Science Fair" contest, bring along all your surplus and help the CLUB make a buck.
22 June	'Last meeting' of spring season is a Business Meeting. Will discuss summer plans, picnics, field days, fall season needs.
